

INTERACTIVE PORTFOLIO

Using Front-End Development

Presentated by [Raj Santosh Khedekar](#)

AGENDA

- **Project Overview**
- **End Users**
- **Tools and Technologies**
- **Portfolio Design and Layout**
- **Features and Functionality**
- **Portfolio Outcomes**
- **Conclusions & GitHub Links**

PROJECT OVERVIEW

- **Built using:** HTML, CSS, JavaScript
- **Features Included:**
 - Responsive navigation bar with mobile menu & dark mode toggle.
 - About Me, Skills, Projects, Contact sections.
 - Fully functional contact form.
 - Scroll-to-top button for smooth navigation.
 - Responsive web design.
 - Clean, modern with animations.

END USERS

Who are the End Users ?

- **Potential Employers / Recruiters** → to view your skills, projects, and contact you.
- **Teachers / Mentors** → to evaluate your learning and progress.
- **Clients** → who may want to see your work before hiring you.
- **Peers & Friends** → for collaboration, feedback, or inspiration.

Designed for anyone interested in your skills, projects, and professional growth.

TOOLS & TECHNIQUES

- **HTML** → Structure of the website.
- **CSS** → Styling, layout, responsiveness, animations.
- **JavaScript** → Interactivity (dark mode, mobile menu, scroll button).
- **FormSubmit** → Handling contact form submissions.
- **GitHub Pages** → Hosting & deployment.
- **AOS Library** → Smooth scroll animations.

Demonstrates use of modern web development tools and best practices in responsive design.

DESIGN & LAYOUT

- **Clean & Modern UI** → Minimalist, professional look with smooth animations.
- **Responsive Layout** → Works seamlessly on desktop, tablet, and mobile.
- **Hero Section** → Intro, tagline, and circular profile image.
- **About Section** → Brief background & goals.
- **Skills Section** → Highlights core technical skills (HTML, CSS, JS).
- **Projects Section** → Showcases completed work with cards & links.
- **Contact Section** → Simple form for easy communication.
- **Dark Mode Support** → Improves accessibility & user experience.

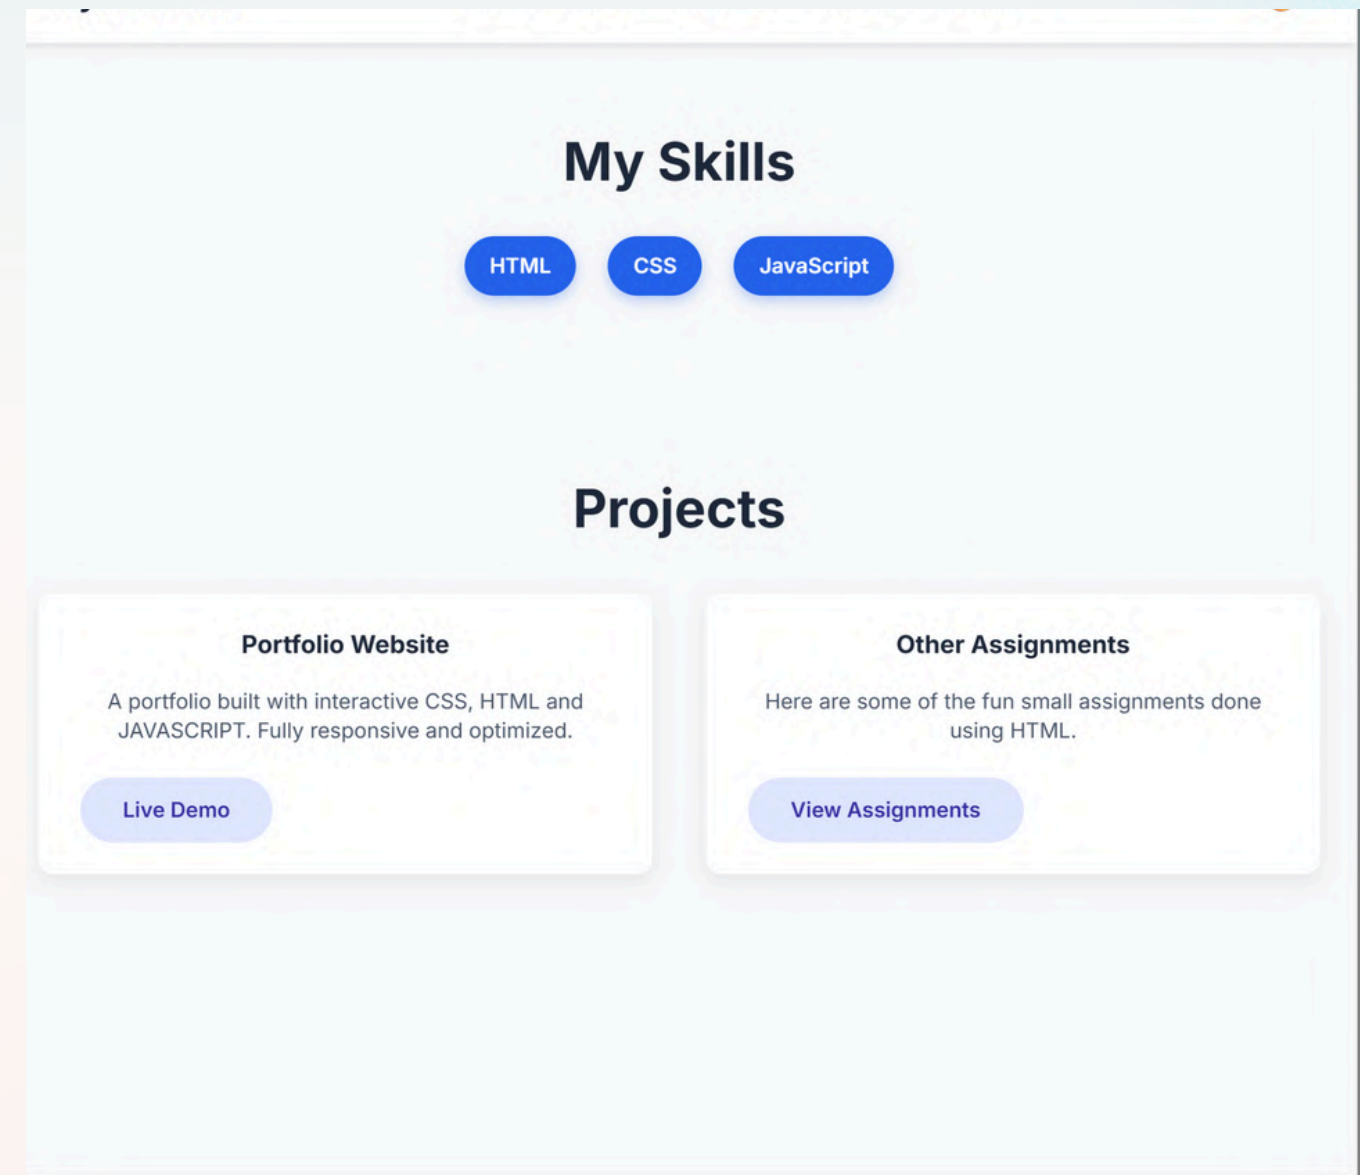

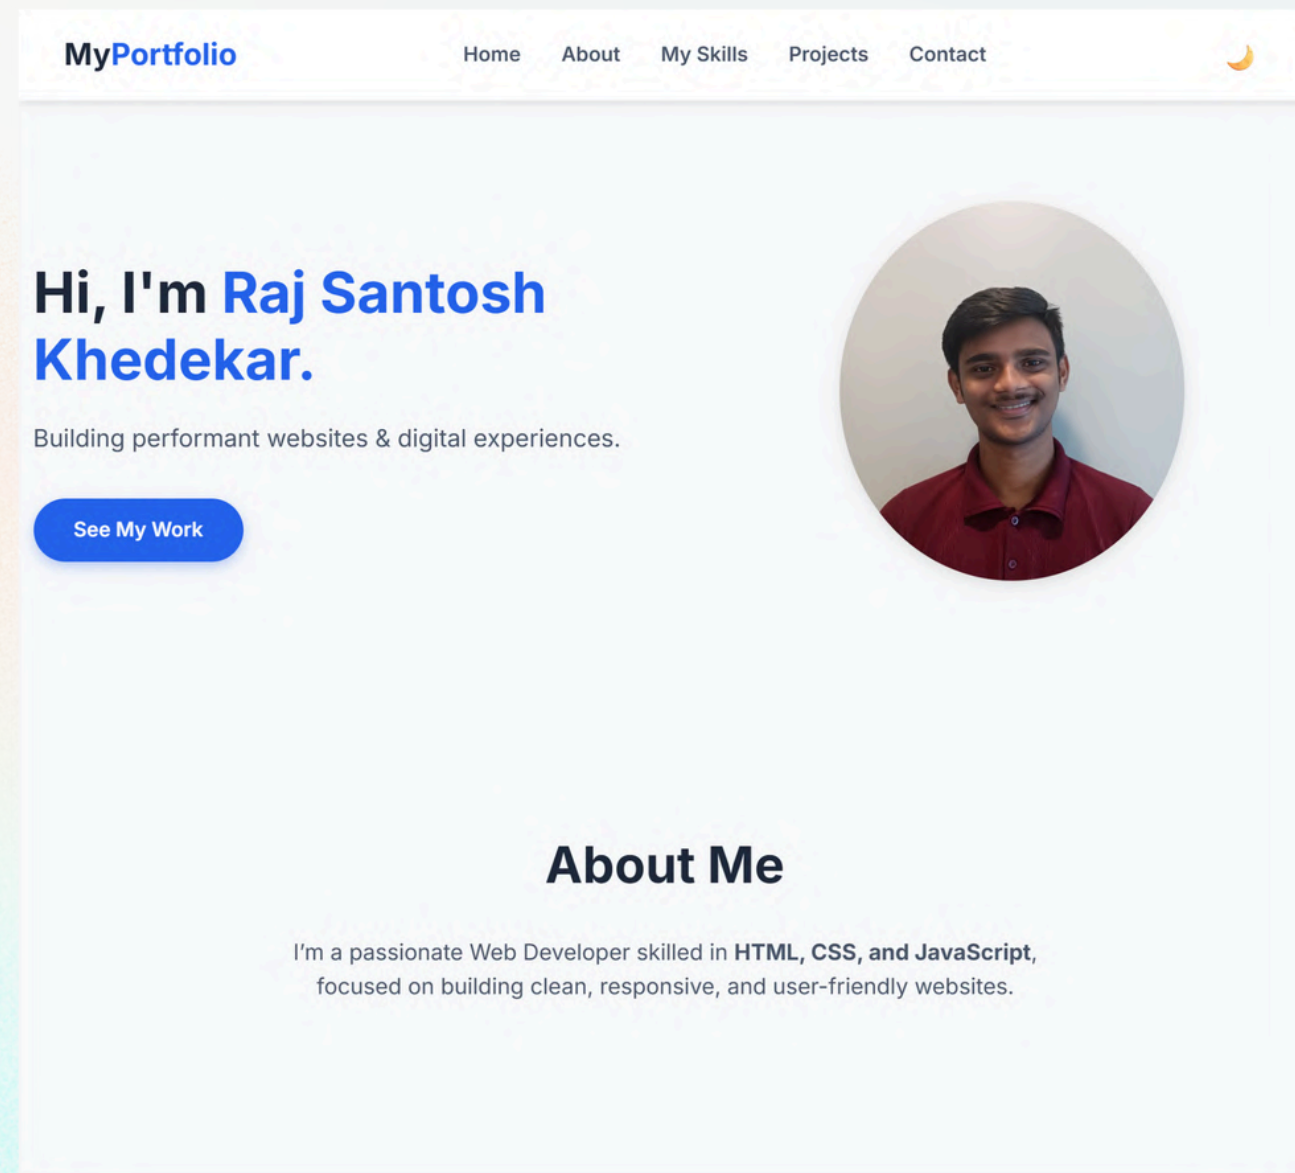

FEATURES & FUNCTIONALITY

- **Responsive Navigation Bar** → Works on desktop & mobile (hamburger menu).
- **Dark Mode Toggle** → Saves user preference with localStorage.
- **Skills & Projects Showcase** → Display technical skills & work samples.
- **Contact Form** → Integrated with FormSubmit for easy communication.
- **Scroll-to-Top Button** → Smooth navigation back to top.
- **Animations** → Fade, zoom & slide effects while scrolling.
- **Footer with GitHub Link** → Quick access to your profile.

Ensures a user-friendly, interactive, and professional experience.

PORTFOLIO OUTCOME

Portfolio Result → My_portfolio

CONCLUSION

- Created a responsive, interactive portfolio website using HTML, CSS, and JavaScript.
- Showcases personal skills, projects, and achievements in a professional way.
- Integrated features like dark mode, animations, contact form, and mobile-friendly layout.
- Demonstrates ability to apply modern web development practices.

BENEFITS TO SOCIETY

- Helps students & professionals present their skills digitally.
- Makes it easier for employers and clients to discover talent.
- Encourages others to build their own online presence.
